Welcome › Your Submissions › Article Submission

Need help?

1 Start Submission | 2 Authors | 3 Metadata | 4 Submission Upload | 5 Expert Nomination | 6 Confirmation

Step 4:

Upload your article

Please upload your article. After this initial upload, you can then submit any supplementary files as you feel necessary.

Essential requirements:

- Save your article as a PDF file (the preferred format for reviewing - if not possible, Word file is acceptable).
- Check it is not more than 8 MB in size.
- No high resolution images to be uploaded at this stage - we will contact you if required.
- Check that you have removed all author names from the document text and from the file/document properties.
- Check that you have removed the email addresses and the biographical notes of all the authors as well as any Acknowledgements.
- Ensure that the title of your paper is exactly the same as the title you entered at Step 3 in Metadata. The same applies for your Keywords and Abstract.

Have you included your Declarations?

- If you have used AI technology in developing your article, you need to insert a statement in a Declarations section at the end of your article, describing the technologies used and the purpose.
- You must insert a declaration in your paper concerning conflicts of interest - go back to Step 1 for details of what to do.

Your submission will be substantially delayed if you do not meet the above points.

Choose File The_Project…sion__1_.pdf

Upload your article
